- Next js
- Vue js
- React ionic

Other skills

- Communication
- Problem solving
- Interpersonal skill
- Team work

WORK EXPERIENCE

1. Full Stack Developer | HMR Technology

(May 2022 - April 2024)

- In my role as a Full Stack Developer at HMR Technology, I am actively engaged in the dynamic development and enhancement initiatives for key projects, including [Coachvantage, Tradelife, and Roadstr].
- My responsibilities span the entire software development lifecycle, from conceptualization to implementation, and I collaborate seamlessly with cross-functional teams to ensure the delivery of high-quality and innovative solutions.

PROJECT EXPERIENCE

1. Vue.js - Coachvantage

Status: Pursuing

Url – www.coachvantage.com

- In my role as a Vue.js Developer at Coachvantage, I am currently immersed in the dynamic landscape of front-end development, collaborating seamlessly with an international team of back-end support professionals. Our collective efforts have resulted in the successful creation of two pivotal modules:

1. **Coach Module**

- I have implemented a comprehensive panel for coaches, empowering them to craft detailed profiles and showcase their coaching services to the public.

2. **Client Module**

- Engineered a user-friendly panel for clients, allowing them to establish profiles and seamlessly access coaching services from a diverse array of available coaches on the platform.

- This experience underscores my commitment to delivering impactful frontend solutions while fostering effective collaboration across global teams. I am enthusiastic about leveraging my Vue.js expertise to contribute further to the ongoing success of Coachvantage.

2. React.js and React Native - Roadstr

Status: Completed

Url – www.roadstr.io

- In my capacity as a Full Stack Developer, I proudly present the successful completion of the Roadstr.io project. This endeavor involved the creation of a comprehensive website and mobile application tailored for the exciting realm of car racing, focusing on real-time event timing in user-preferred locations.

- Key Contributions:

1. **Web Development:**

- Crafted a dynamic and visually appealing website that serves as a central hub for car racing enthusiasts.

2. **Mobile Application:**

- Designed and developed a responsive mobile application, ensuring seamless access to real-time event information on the go.

- This project not only demonstrates my technical proficiency but also underscores my commitment to delivering innovative and user-centric solutions. I am eager to bring my skills and experience to new challenges and contribute meaningfully to future projects.
